Philadelphia InfraGard

8:15 Doors Open

Registration, Displays, Continental breakfast

9:00 Welcome

Keynote: "The FBI's Critical Incident Response Group"

Brian Driscoll, Commander of the FBI's Hostage Rescue Team and Chief of the Critical Incident Response Group's (CIRG) Tactical Section, shares his experience-based perspective on the FBI's unique capabilities and crisis response to real-world operations in which he has personally participated and led.

10:15 Break

10:35 Breakout Sessions (concurrent)

"Recovering the Past With the FBI's Art Crime Team"

Special Agent Jake Archer provides an inside look at the FBI's unique Art Crime Team and their efforts to recover stolen antiquities, artwork and artifacts – a "different" form of white-collar crime with its tentacles in all types of countries. From theft to forgery to fraud, every case is unique and requires very special handling.

"Unleashing the Dark Side: Navigating the Threats of Hostile AI"

Eric Robuck, President, Valander Group, looks at the dark side of artificial intelligence. He'll explore and unravel the intricate web of Hostile AI's challenges and risks – deep fakes, cyber attacks, disinformation and more. You'll gain new insights into the potential consequences, plus strategies to identify, combat, and mitigate these threats – and leave with greater awareness and insights to protect yourself and your businesses.

11:25 Break

11:35 Breakout Sessions (concurrent)

"Targeting Transnational Repression"

A Chinese police station in New York City? Special Agents Griffin Spencer and Patrick Burke will examine trans-national repression, the targeting of foreign nationals on US soil by foreign, authoritarian governments going after their citizens abroad, who dare speak up against them.

"Hostile AI Concerns and Approaches – A Panel Discussion"

Chris A. Quintanilla, Managing Director, Saperde (Moderator)
Krista Arndt, CISO/United Musculoskeletal Partners
Jeffrey Johns, Partner/Herbein | FOS Risk Management Services
Eric Robuck, President/Valander Group

12:25 Lunch

1:15 **Keynote: "On Leadership – A View From the Top"**

Brad Edwards, CEO, NFL Alumni Association, shares his perspectives on leadership, based on his own pro football career – including runner-up in the voting for MVP in Super Bowl XXVI – and his stewardship of the most well-known association of retired professional sports players, coaches and team staff.

2:15 Break

2:35 Breakout Sessions (concurrent)

"How to Protect Your Enterprise Using the Presidential Protection Methodology"

Hazel Cerra, Assistant to the Special Agent in Charge, U.S. Secret Service (Philadelphia), presents strategies the Secret Service uses to protect the President – including those she used when assigned to the Former President William Clinton Protective Detail. She'll show how you can apply those same strategies to increase your own cybersecurity effectiveness.

"Flipper Zero: A Dive into Handheld Hacking Tools"

Joe Walsh, Assistant Professor and Program Director, DeSales University, provides a close look at a powerful, handheld hacking device that's making waves in the cybersecurity community. You'll learn how this device empowers both ethical hackers and cyber criminals and how it can be used for network penetration testing, RFID hacking, signal sniffing… and yes, there's more!

3:25 Break

3:40 **Keynote: "Shutting Down 'ChipMixer,' the Crypto Laundering Scheme"**

Special Agent Dan Williamson will describe the intrigue and wizardry behind how the FBI took down and dismantled ChipMixer, an unlicensed "service" that helped launder billions in cryptocurrency from a wide range of criminal schemes, including ransomware and fraud by nation states and other rogue actors. An FBI Case Study.

4:40 Adjourn
